

Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-20. (canceled)

21. (currently amended) A computer readable medium for accessing digital content, the computer readable medium having computer executable instructions stored thereon to configure a media device to perform the steps comprising:

DO NOT  
ENTER  
/J. M. /  
/A.J.F. /

- a. downloading a digital content package to said media device;
- b. creating a license rights package including an account number and debitable parameters for accessing said digital content package, wherein said account number is associated with a consumer;
- c. executing a purchase of ~~purchasing~~ said license rights package;
- d. downloading said license rights package to a license storage on said media device;
- e. accessing the ~~the~~ [[a ]] license storage on said media device;
- f. in response to an access desired by a user, determining that said debitable parameters of ~~parameters of~~ [[if ]] said license rights package [[ is]] are not available in ~~are not available in~~ said license storage for an access desired by a consumer;
- g. prohibiting access to said digital content package ~~if said license rights package is not available for said access desired by said consumer;~~
- h. prompting said ~~consumer to procure~~ user to purchase a renewed said license rights package, wherein said renewed license rights package comprises at least a portion of said license rights package ~~if said license rights package is not available in said license storage;~~ ~~debiting said license rights package when said consumer accesses said digital content package in accordance with license rights included in said license rights package; and~~

- i. receiving a request from said user to purchase said renewed license rights package;
  - j. modifying-creating said renewed license rights package without contemporaneously connecting to a host system, the step of modifying creating said renewed license rights package further comprising using metadata included with said license rights package to:
    - i. calculate a cost for modifying-said renewed license rights package;
    - ii. modify-add available debitable parameters associated with said renewed license rights package; and
    - iii. store a charge associated with said account number contained in said license rights package for said modification-renewed license rights package;-and
  - k. authorizing said renewed license rights package for use by said user prior to transmitting said charge to said host system; and
  - l. selectively transmit-transmitting said charge to said [[a]] host system at a time when said media device is connected to said host system.
22. (new) The computer readable medium of claim 21, wherein the consumer and the user are the same individual.
23. (new) The computer readable medium of claim 21, wherein the user and the consumer are different individuals.
24. (new) The computer readable medium of claim 23, wherein said charge associated with said renewed license rights package is stored under an account number associated with the user.
